- Payroll File Management
- Reimbursement Plan Administration (e.g., FSA, HSA, HRA, Commuter, LSA, Education, etc.)
- COBRA Administration
- Direct Billing
- ND Testing
- Compliance Support
- Call Center Support

Bundling Makes Good Business Sense

Save Money

Consolidating with our bundled solution saves time and money, reduces costly errors, and allows the HR team to focus on strategic initiatives. Cheaper plan costs mean employers can offer a bigger allowance in an LSA or contribute more to employees' HSA, both of which are powerful recruitment and retention tools. Employees who understand their benefits make better decisions leading to overall savings and better financial wellness.

Reduce Administrative Burden

Say goodbye to juggling multiple vendors and the associated headaches. The Navia One Bundle simplifies your benefits management by consolidating your health, wealth, life, and compliance plans under one roof. We reduce the administrative load on your HR team and provide one dedicated and responsive service team. Open enrollment becomes a breeze with unified, targeted communications and carrier changes handled by your Navia team.

Provide an Exceptional Experience

Happy employees are loyal employees. By centralizing all benefits in one easy-to-navigate portal, the Navia One Bundle ensures your employees can effortlessly manage their enrollments and accounts. Imagine a one-stop shop for all their benefits-related questions, card orders, and information updates. This streamlined experience engages employees, increases participation rates, and enhances employee satisfaction.
